SMITHSONIAN INSTITUTION

UNITED STATES NATIONAL MUSEUM

WASHINGTON, D. C.

April 7, 1938

Dr. H. A. Allard Bureau of Plant Industry Department of Agriculture Washington, D. C.

Dear Dr. Allard:

Except for the lichens Mr. Leonard has completed the identification of the large lot of Virginia plants, mainly from the Bull Run Mountains, received from you last May, and accessioned at that time. Your catalogue is returned herewith. A representative set of the material has been added to the National Herbarium, and the remaining specimens, mostly duplicates, have been distributed to the six institutions that received similar material of your first collection, the number now sent out being as follows: Gray Herbarium, 234 specimens; New York Botanical Garden, 257 specimens; Virginia Polytechnic Institute, 469 specimens; Field Museum, 121 specimens; Missouri Botanical Garden, 122 specimens; Carnegie Museum, 119 specimens.

Mr. Leonard is in doubt regarding some of his Carex identifications, and I have asked Dr. Fernald to check these, in going over the Gray Herbarium list.

With kind regards,

Yours very truly

William R. Maxon

Curator, Division of Plants
